Discovering your Integrated Archetype is like finding your personality's innate superpower. This knowledge adds value to your life and to your ability to stay in balance, which will help you transcend life's challenges.

Your Integrated Archetype reveals how you intentionally or unintentionally express yourself and the way you most naturally are. You might have wondered why at times you are shy and introverted, and at other times bold and extroverted.

Or why, in some areas of life, you are logical and linear while in others you are creative and out-of-the-box. This can be explained through knowledge of the particular elemental combination that makes up your Integrated Archetype.

The explanations will give you greater perspective on what you need to achieve balance. It will also help you understand others around you and how they fit into your life. The purpose is to aid you in finding power within yourself and creating harmony in your interactions.

Below, you'll find a list of your superpowers, energy-balancing activities, your creed and purpose, where your support comes from, who your greatest teachers are, and more. When you focus on strengthening your positives, your superpowers shine, and you'll be able to serve your sphere of influence in a much more meaningful and dynamic way.

The Intuitive Luminary: Water + Fire

Aka: The Enigmatic Optimist and The Introverted Extrovert

PRIMARY ELEMENT: Water (Selene)

SECONDARY ELEMENT: Fire (Avior)

YOUR OVERVIEW: As an Intuitive Luminary, you innately understand what others need. You excel at inspiring others with ideas and can build vivid images of the positive impact that you believe in. You are a positive source of energy and thrive when you are “feeling good” about life and all that’s happening. You have a warm, engaging personality, although it can take you some time to adjust in a new environment.

Helping others make new connections inspires you. You delight in linking people to people or people to products, and you know who or what to connect or recommend. As an Enigmatic Optimist, people are drawn to your positivity. As an Introverted Extrovert, you are private and reserved and love your alone time, and yet you light up when you feel confident and are called on to share anything you are interested in or that furthers your purpose.

YOUR PURPOSE: You are here to be an inspiration to humanity and a source of healing.

YOUR CREED: “I exist in a limitless Universe, and I can achieve anything.”

YOUR CORE DESIRE: To be accepted and needed while living a happy life in which you are able to do what you want.

YOUR CORE VALUE: To be loyal to love and do what inspires you.

AT YOUR BEST: You are calm yet energetic, optimistic, and creative. You are positive even in the face of challenges and are able to go with the flow of life.

AT YOUR WORST: You are withdrawn, insecure, overly impulsive, selfish, and self-centered. You take offense easily.

MOST COMPATIBLE WITH:

Metal + Earth – Masterful Ally
Earth + Metal – Reliable Analyst

MOST SUPPORTED BY:

Metal + Wood – Efficient Producer
Wood + Metal – Flexible Rule Maker

MOST DRAINING FOR YOU:

Wood + Earth – Thriving Manifestor
Earth + Wood – Patient Speedster

YOUR GREATEST TEACHER:

Earth + Water – Calm Connector
Water + Earth – Reflective Confidant

YOUR ELEMENTAL DYNAMIC: Controlling

Fire and Water together create steam, so when you are in a balanced state, you are powerful and dynamic. However, since Fire also can be put out by Water, it's important to take time to nurture both elements and not overdo one or the other.

If you are excessively active, and if you do not get enough downtime and rejuvenation, which Water needs, you suffer from depletion and burnout. However, if you spend too much time alone, you lack the stimulus you need to be creative and inspired.

MISSING ELEMENT: Wood

Wood bridges the elements of Water and Fire. In the elemental cycle, Water nurtures Wood, which in turn fuels Fire. The only thing Water and Fire have in common is Wood, so when you feel at odds with yourself, tired, or out of balance, being in “Wood” energy, like nature, is extremely helpful.

Having plants (real or silk) in your environment is essential for support. Wall art depicting nature and all shades of the color green are considered beneficial for Water/Fire Integrated Archetypes.

Wood energy is about moving forward and being adaptable, so it can be helpful to spend time with people who have Wood as a component of their makeup (e.g., Nexus – Superhero Archetype Two).

YOUR PERSONAL VIRTUES:

Profound: You see beyond the obvious and rarely draw a conclusion from a superficial viewpoint. You seldom miss what others overlook.

Magnetic: You have the ability to bring out the positive in people and situations, and people are drawn to your positive outlook and spirit.

Subtly Persuasive: You are subtle, yet influential in your ability to be persuasive. You excel at “selling” products and ideas that you believe in without actually selling them.

Perceptive: Your intuition when combined with confidence is second to none. You are sensitive to others’ needs and know exactly what to say to lift another’s spirits.

Admired: You are respected for your knowledge and your ability to connect to people. You excel in many things and are well liked and respected.

YOUR SUPERPOWERS:

Connection, Intuition, Positivity, Confidence

WEAKNESSES TO STRENGTHEN:

Insecurity, Defensiveness, Arrogance, Vanity

YOUR MISSION FOR POWER:

Encourage people often. Make sure to show appreciation for others, and make it a point to be specific about what. You will build engagement and happiness.

Remember that your attitude is contagious. People in your life have likely come to see that you are a great support to them. You are enthusiastic and energetic when they are down or are afraid of making a change. Your attitude is what helps them continue on. Over time, people will start to look to you for your wisdom and inspiration.

Protect yourself and your gifts. Insulate yourself from the people who drain your energy or who whine, blame, and complain too much. Make it a point to position yourself in environments that support you the best.

Connect people daily. Though you are aware of the hierarchy, boundaries, and silos that divide people from each other, the Water element within you gives you the ability to flow across borders. You can use this to open people up to new ideas and to previously unseen opportunities.

Help others understand the bigger picture. You have the ability to see things in a way that can help others understand what's going on. Share what you see, and you'll help others feel more at ease.

LIFE AFFIRMATION: "I see my desired reality so strongly that I attract the perfect situations and circumstances into my path to support me."

The more time you spend envisioning what you want to manifest versus focusing on the fear of *not* getting what you want, the stronger your power. Science has now proved that we create our own reality. Knowing this, it makes more sense than ever for you to put focus on what you want. As an Intuitive Luminary, you will "magically" find yourself in the right places at exactly the right time. You can be, do, or have anything you want in your life; you just have to use the power of your Water to envision your desires, and then use the illumination of your Fire element to attract them.

ENERGY-BALANCING ACTIVITIES: (Refer to the list below for ideas.)

When you feel emotional: Earth activities

When you feel mentally stressed: Metal activities

When you feel burned out: Water activities

When you feel stuck: Wood activities

Pick a location in your house—perhaps your room, desk, or car—and clear and clean it as best you can. Polish all the metal or shiny surfaces in your house to take off water marks and make the shiny surfaces shiny again. Talk to someone who is analytical. Spend time alone. Do something that requires you to work out logistics. Neaten up your computer desktop. Clear digital clutter. Clear physical clutter from your desk or a small area you frequent often. Clear off all countertops in your home.

INTEGRATED ARCHETYPE GLOSSARY

The various categories of the twenty Integrated Archetypes are defined here for your reference as needed.

PRIMARY ELEMENT: The element with the highest score on your test.

SECONDARY ELEMENT: The element with the second highest score on your test.

OVERVIEW: This is a general description of your Integrated Archetype.

YOUR PURPOSE: This is your Integrated Archetype's primary purpose.

www.MasterYourSuperpowers.com

YOUR CREED: A creed is a belief that drives your thoughts and behaviors. Your personal creed must be one that you believe in, but it doesn't have to be accepted by others. There's no right and wrong to your creed. The word credo comes from Latin and means "I believe." You cannot do what you say if you don't know what you believe. The creed that is listed is a prompt for you to consider what you actually believe in. *Please change or rewrite the one given to best suit you.*

AT YOUR BEST: This is a description of how you naturally operate when you are in balance physically, mentally, emotionally, and spiritually. If you don't see any of these qualities within yourself now, know that they do exist and are just dormant within you currently. Once you achieve balance, these traits will emerge organically.

AT YOUR WORST: If you see that you don't demonstrate any of these behaviors in your expression of self, that is great! You are likely operating in a very balanced way and may have transcended these traits from the past. Or, you may find that they show up only when you are stressed and overwhelmed. The key is to know that when you do exhibit or feel these emotions arising, it's wise to slow down and pay attention to yourself and your own needs to restore balance and live your purpose.

YOUR ARCHETYPE TWIN: This is your "mirror" archetype. It has exactly the same two top elements as yours, but its primary element is your secondary element and vice-versa. For example, if you are a Water + Fire, your archetype twin is Fire + Water.

What does this mean? The twin is the archetype that most closely resembles you. Fundamentally, it mirrors you, but with subtle differences. Under different circumstances or in different moods, your archetypes could almost change places. And if you have an archetype twin in your life, you feel a natural connection. This is someone who "gets" you, and you them. You might notice that when you are together, you operate with the same dynamic. You match each other in ways that are inspiring and you get along easily. The traits that you love in yourself are the traits that you love in them, and vice-versa.

The challenge comes when one of you is out of balance, stressed, or having a bad day and not operating optimally. It is then that you may experience some irritation, as the twin's purpose in your life is to bring to your awareness your disowned parts—the parts of you that you don't want to think you have even though you actually do; you just haven't accepted yet. Since one of the purposes of life is to grow in self-awareness, at times your archetype twin's purpose in your life is to do just that—teach you to accept and love yourself as you are.

www.MasterYourSuperpowers.com

MOST COMPATIBLE WITH: These are people you get along with almost effortlessly. At times you're there for them, and at other times, they are there for you. These are people you feel very "at home" with. The relationship flows naturally and with ease. This is because the mutual exchange of elements generates an even exchange of energy.

MOST SUPPORTED BY: These are people who are always there for you. It's not that you aren't there for them, but somehow, they just feel like the solid ground beneath your life, however you interact with them. You feel their support and trust their sincerity.

In these relationships, both elements that compose the other's Integrated Archetype "give" of themselves to your elements. It's wise to be especially appreciative of these people; let them know how important they are to you and how thankful you are to have them in your life.

MOST DRAINING FOR YOU: These are the people you feel you can spend only a limited amount of time with before you get tired. It's not that you don't like them or don't enjoy being with them; this combination of elements just operates on a different level, and being with them requires more of your energy and other resources. This is especially true when they do not feel empowered or when they are undergoing hardships and emotional challenges.

YOUR GREATEST TEACHER: Someone who is significant in your life for one of two reasons: either you have great respect for them and easily and willingly learn from their influence, or they are the most challenging people you have to deal with. Either way, they offer you the most growth.

These relationships work best when you embrace these people as teachers, knowing that because of them you are more patient and understanding—a more evolved you. The elements of your greatest teachers are the two that directly challenge your elements.

YOUR ELEMENTAL DYNAMIC: All elements have a cyclical relationship to each other. They are designated as either "nurturing" or "controlling," depending on their phase of interaction with each other. Out of the twenty Integrated Archetypes, there are ten "nurturing" interactions and ten "controlling" interactions. Your top two elements will fall into one of these two categories.

Controlling: This means that your two elements relate in a way that one wants to take control of the other.

Nurturing: This means that your two elements relate in a way where one is more nurturing and supportive of the other.

www.MasterYourSuperpowers.com

MISSING ELEMENT: Your missing element is detailed here if your elemental dynamic is “controlling.”

SUPPORTING ELEMENT: Your supporting element is detailed here if your elemental dynamic is “nurturing.”

YOUR SUPERPOWERS: Your four top superpowers are listed here, based on your Integrated Archetype. Continue to add to your awareness of them as you develop, notice, and affirm them in your daily actions.

YOUR MISSION FOR POWER: Your daily actions make a difference in how you encounter and transcend your challenges. Focus on these missions, which you can incorporate daily. They detail and emphasize what you are good at and how you make a difference in your sphere of influence.

WEAKNESSES TO STRENGTHEN: These are areas that you may have either transcended or are still working on. As human beings, we will always have our weaknesses, our downsides, but the more conscious we are about them and the more we work on balance, the less they show up. Refer to Appendix A at the end of this chapter for some ways to temper and overcome your weaknesses.

LIFE AFFIRMATION: The word *affirmation* means to make something firm in your mind. Affirmations are phrases that we can repeat inwardly to help us maintain balance and stay on course. To maximize your potential, continue to develop your own affirmations.

ENERGY-BALANCING ACTIVITIES: We all experience periods of time when we feel out of balance. When you notice you are not operating at your best or are not feeling quite like yourself, you can look here to identify what you need. Embrace one of the suggested passive or active activities to balance out your energy.
